	kathmandu
VINAYAK SHANTI NIKETAN School	Apr, 2006 - Apr, 2019

+2 in (Computer Science)   Kalopul, Kathmandu

Xavier International College

BSC(hons) CIT   Satobato

Asian institute of technology and management   May, 2022 - Present

PROJECTS

Smart Air Quality Monitor System

I led a team to create a system that detects harmful gases in the air. The main goal was to quickly notify users through email if dangerous gas levels were detected. We also made it easy to see the trends in gas levels over time with graphs using MATLAB. . The project aimed to meet sustainable development goals which is made by UN Nations.

portfolio

I crafted a portfolio spotlighting my projects, skills, education, certifications, jobs, and awards. It's a snapshot of my abilities, conveniently hosted on GitHub using Git Bash for version control.
